

# Expedition Reptile Newsletter

## Can you say HOT!?

July is in full swing and we are so booked that we've been pulling off double-header days—two shows back-to-back! The heat is on (both literally and figuratively), but our cold-blooded crew is thriving

while we hustle across New England. From scorching afternoons to golden evening shows, the reptiles are handling the summer temps like pros while we keep the education and entertainment slithering along!

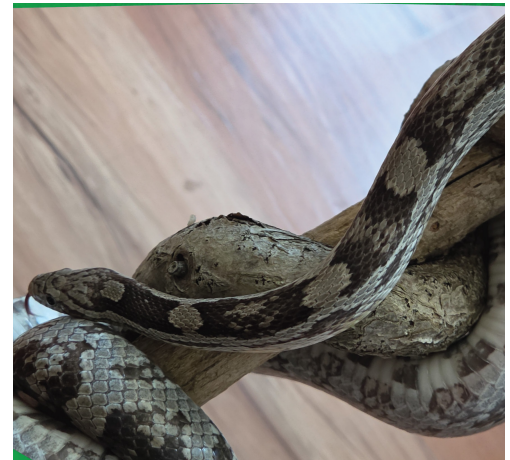

## Reptile Bulletin

Meet Jimmy the Corn Snake! We're excited to introduce the newest member of our scaly lineup — Jimmy the Anery Corn Snake!  
This sweet-natured guy

has quickly become a show favorite. With his striking white, black, and grey coloration.

Jimmy is the perfect ambassador for showing audiences just how unique and beautiful corn snake morphs can be.

## Upcoming Events

**Mark your calendars!**  
We will be at Community Day in Thompson on Saturday, October 3, 2026 at Riverside Park in North Grosvenordale, CT.

We're now booking well into fall — don't wait to lock in your date!
